

Conceptual Physics Expectations and Consequences

The day-to-day business of Conceptual Physics involves reading, writing, listening, and responding in various ways at various times. The course is geared for success, and paced to allow for a variety of learners.

Be prepared for class. You will need paper and a pencil every day. We keep our textbooks in the room unless a student wishes to take it home. Students who are not prepared for class may be assigned detention.

The hall pass may be used by one student at a time. The Hall Pass must be completed by the student and signed by the instructor, and has a negative impact on your extra credit.
