

The Phyz Ready Desk

READY DESK REQUIRED ITEMS

1. The Physics binder. Add to the binder each time you get new handouts as if you were constructing a book. That is, the newest pages are added to the end, not to the beginning.
2. Scientific Calculator. Available at stores for approximately \$10. I like the TI-30, but favorites vary.
3. The pencil is our preferred writing instrument. Why? Because we sometimes make mistakes, and pencils allow for erasure. If you cannot live without a pen, have a pen. Labs must be completed in pencil.
4. Today's handout/s. If multiple pages were given, have the active sheet (the one that's being worked on) in front of you and the inactive sheets stacked on your binder.

READY DESK FORBIDDEN ITEMS

1. Phones/personal electronic devices. All phones are to be powered off and stored securely in your pack. Not in your pocket, not in your binder, not in your lap. Off and stored securely deep in your pack. Kindly have your phone off and stored prior to entering class. Finish all phone-related activity prior to entering the classroom.
2. Ear buds or equivalent. These should be stored securely in your pack as well. Not threaded through your shirt, not dangling on your chest or off your ears. Separated from your body, secured in your pack.
3. Books of any kind: textbooks, novels, comics, etc.
4. Packs of any kind: back-, lunch-, roller-, etc. Kindly store packs in the reserved storage spaces provided.
5. Food or drinks. Take your meals and snacks prior to or after class—not during. Plain, colorless, unflavored water is allowed. Transparent containers may be kept on the table, metal containers are to be kept on the floor.

READY DESK ALLOWED BUT NOT REQUIRED ITEMS

1. Protractor/Ruler.
2. Do you have a medical need to fidget? Fidget silently using your non-dominant hand under the table. To the rest of us, it will be as if you're not even fidgeting at all. If your fidgeting becomes a distraction, you will need to discontinue. (FYI: Cubes are safer than spinners; spinners are more likely to contain toxic materials.)

OCCASIONAL STATUS: TEST / TEST CORRECTION JOURNAL SECURITIZED!

In addition to the Ready Desk parameters, unauthorized handouts, binders, and wristwatches are secured in the pack, just like phones. Now it's just you, your calculator, and your pencil. In Physics, returned homework is okay. In AP, College Board reference sheets and student-prepared notecards are okay.

OCCASIONAL STATUS: LAB QUIZ SECURITIZED!

In addition to the Ready Desk parameters, unauthorized handouts, binders, calculators, and wristwatches are secured in the pack, just like phones. Now it's just you and your pencil. Completed lab handouts are allowed. For a select few lab quizzes, calculators are permitted. Calculator access status is listed on the quiz, itself.
