Rio Americano Science Boosters!

Rio Americano Science Boosters is an organization of parents, families, friends, and teachers who support science education at Rio Americano High School. Our fundraising efforts put supplies and equipment in classrooms for immediate student use all year long.

Your contribution will have a positive impact on your student's learning opportunities this year!

Establishing and maintaining excellent science activities requires substantial and ongoing support. Your donation will help provide dissection materials, chemicals, batteries and bulbs, and other consumables used in student labs. Your donation will also help provide the glassware, hardware, software, probeware and other durables used in today's science laboratory.

The newly adopted Next Generation Science Standards add engineering components to our science courses. Most engineering projects require both permanent and consumable apparatus and materials. We hope for new state and district support to fulfill these needs, but such funding is not yet in place.

We encourage all families with students enrolled in science to join at the family membership level. Larger donations are greatly appreciated; they encourage more ambitious projects. *In previous years, we were able to provide Rio's science teachers with over \$10,000 of support.*

Please sign the top of this form and detach the membership form below. The top should be returned to your student's science teacher by your son or daughter. To donate, complete the membership form and send it to the Science Boosters as directed below.

RIO AMERICANO SCIENCE BOOSTERS MEMBERSHIP FORM

Student name/s _____

Parent name/s _____

Street Address _____

City, ST ZIP _____

Phone _____ Email _____

MEMBERSHIP ___ Family: \$25 ___ "Supplies Superhero": \$50
