DETAILS

1. You lose a system point opportunity if you are tardy (without a pass from a school official) or absent (excused or unexcused) during a system point check. Second-chance checks will be offered only to those with school-approved (A) absences. If you anticipate any other kind of absence, you are advised to send your physics binder with a classmate in your period.
2. System point status is typically updated only toward the end of each grading period. It is important that you keep all work for which system points were **awarded** until the end of the semester.
3. Negative system points can sometimes be "worked off" through the performance of a chore. A limited number of chores will be available during the semester. No student will be allowed to work off more than three negative system points, and there is no guarantee of chore availability.
