

Psychic Sketch

- Should resemblance to a psychic's sketch be probable cause for arrest? Why or why not?
 - In a city of 100,000 people, how many would bear a stronger resemblance to the sketch than Karr did?
- What is the meaning of this story now that the physical evidence shows Karr wasn't involved in the JonBenet case?
- The NBC11.com story says that "psychic" Dorothy Allison helped Colorado authorities arrest a serial killer, but it provides no evidence of such assistance. Why do you suppose that is?
- If another suspect in the case is ever apprehended, do you think another "matching psychic sketch" will be found? Discuss.
